Sabina PCL. (SABINA)

"Outsource production and focus on marketing and product development"

Key takeaways from Analyst Meeting

- The outlook of revenue from sales of SABINA brand continues to grow through
 its marketing activities and launching new products while the revenue from
 production sourcing business (9% of total revenue) shows no growth partly due
 to the impact of BREXIT.
- 2. Currently, the company has outsourced 33% of its production to factories abroad, increasing from 4% and 18% in 2017 and 2018 respectively. The products from this production outsourcing show a high gross margin of 62.2% comparing to that of the products from the company's own production line of 52.9% (1Q19 reference). The company has planned to continuously increase production outsourcing by selecting high quality factories in other countries where cost of production is lower than Thailand, for example China, CLMV and Africa.
- Part of the benefits from saving on production cost will be allocated to the marketing and product development activities. Overall, the company has set the target for Net Profit Margin expansion at 1% annually (from 2018 base of 11.65%).
- 4. The business still has opportunity in foreign markets. Currently, the company has exported SABINA products to 7 countries, namely Vietnam, The Philippines, Myanmar, Laos, Cambodia, Bangladesh, and Pakistan, with total 108 points of sale.

1Q19 Performance Review

The company reported 1Q19 net profit of 95.2 Million Baht (+20%YoY,+26%QoQ) as a result of i) Revenue increased by 12% YoY to 774 million baht, with the revenue from sales through stores and online channel grew 8.2% and 61.5% respectively and ii) Gross Profit Margin increased to 54.7% comparing to 53.0% in 1Q18, reflecting the company's cost management by outsourcing part of its production to factories abroad.

Business

The company manufactures and sells underwear to its subsidiaries and OEM customers which are the distributors of underwear abroad, with a main focus in European customers. Currently, the company has 3 factories located in Chai Nat, Yasothon, and Buriram provinces with combined production capacity of 8.8 million pieces per year. Sabina Fareast Co., Ltd. is the company's subsidiary that designs, manufactures, and distributes women's underwear under "Sabina" brand.

Analyst Opinion

SABINA has shown continuous growth during the past 9 years, with management's vision to shift towards creating the company's own brand instead of being an OEM manufacturer for foreign brands. Stock currently trades at 24.9x Trailing PE which is higher than WACOAL, the market leader, which currently trades at 16.6x. We view that this is the result of SABINA's higher growth outlook following its continuously improving brand awareness. Therefore, we recommend investors to keep eyes on i) new product launches in the future and ii) foreign exchange rate of Thai Baht (THB) because the company will be better off from THB appreciation and worse off from THB depreciation, as the company is the net importer. The latest update on IAA Consensus, the 4 analysts who follow this stock had recommended "Buy" on this stock, with the average target price of 35.8 THB or 21% upside.
